- Good time management and punctual

WORK EXPERIENCE

ExxonMobil

Sep 2022 - Nov 2023

Contractor Data Management System Coordinator

- Responsible for daily, weekly, and monthly monitoring and reporting of system data
- Managed contractors' time and billing data, ensuring accuracy before transferring data to the SAP system for payment processing
- Maintained daily compliance of systems and vendors adhere to contracts and schedules on a daily basis, and fulfilled all audit requirements
- Addressed related inquiries and issues, resolving any disputes that arose between systems

PROJECTS

Cyclistic Bike-Share Analysis

Tool: Rstudio

- Formulated a new marketing strategy aimed at converting occasional riders into annual members
- Utilized RStudio for comprehensive data preparation, cleansing, analysis, and visualization
- Discerned patterns and valuable insights from the dataset to offer strategic business recommendations

Bellabeat Data Analysis

Tool: Python

- Examined data from smart devices to understand customer usage patterns and applied this information to shape the company's marketing strategy.
- Identified trends in smart devices and presented them through engaging visualizations.
- Employed Python to process, clean, analyze, and visualize the data.
